

Capitol Connection Q&A for Contractors

Week of 3/18/2024

By Shauna Krause, President, Capitol Services, Inc.

There are 'degrees' of value in a contractor claiming credit toward experience. Another contractor discovers good news that takes a turn for the worse, depending on his choices. While CA has license reciprocity with some other states it's not a completely free ride as there are still 'hoops' to jump through...

Q: I am applying for a new license and there is a question on the application regarding education. I obtained several degrees outside of the US. The application states that if you answer 'yes' to the education question, you are required to attach the transcripts. They are going to be difficult for me obtain. Is this really necessary?

A: Only if you are looking for credit in lieu of work experience, but if you are showing at least four years of work experience, no need to go to the trouble to obtain the transcripts.

Q: Can I reactivate my license if it expired in 2021? Thanks for your assistance.

A: Yes! You have five years from the time a license expires to renew it. I looked up your license and your Bond and Worker's Comp have both (obviously) expired as well so you would need to provide a new Bond and proof of Worker's Compensation insurance if you have employees. Also, I noticed that you are currently the Responsible Managing Employee (RME) for a corporate license. The CSLB will not allow you to renew your license on "active" status unless you disassociate from the company license you are Qualifying. An RME can only Qualify *one active license* at a time.

Q: I am finalizing my CA contractor's license this week, I am scheduled to take the second exam tomorrow and the CSLB informed me the license would be issued shortly after that. Once I am officially licensed, can I immediately obtain my Arizona and Nevada licenses and not have to sit for the Trade exams?

A: Nevada requires that you are the Qualifying Individual *for four years immediately preceding the submittal of your application* in one of the reciprocal states in order to qualify for a Waiver of the Trade exam. But you will be able to immediately apply for an AZ license and be granted a Waiver of the equivalent trade exam. You would still need to complete their online Statutes and Rules training course.

Q: I am going to arbitration with one of my customers. This is the first time I've had to go through this process and I'm wondering if this is going to affect my license. Will it be public information or "red flagged" when anyone looks up my license?

A: Arbitrations are not listed on your contractor's license when the public looks it up, *unless you do not comply with the terms of the arbitration.*

While knowledge is power, knowing where to go for the answers is half the battle. Get expert assistance immediately when you call 866-443-0657, email info@cutredtape.com, or write us at Capitol Services, Inc., 3609 Bradshaw Rd, Ste H, #343, Sacramento, CA 95827. INTRODUCTION

A bulldozer is an industrial tractor with a wide upright blade at the front used for clearing earth or other material. With their enormous size, these machines can easily cause serious injury or death if not operated properly.

SAFE WORK PRACTICES

General safety guidelines for operating bulldozers are as follows:

- A safety inspection should be conducted on each machine before use. This includes backup signals, seat belt condition, lever function, etc.
- Do not operate a bulldozer unless you have been trained and authorized by your employer to do so.
- Before starting the bulldozer fasten your seatbelt, and check that the path is clear of workers, objects, and other obstructions.
- When the bulldozer is in need of repair, workers must follow proper lockout/tagout procedures.
- A system of traffic controls must be used when operating the bulldozer on public roads or in areas close to, or obstructing vehicle traffic.
- Be watchful for overhead power lines and any ditches or trenches when operating the bulldozer.
- As with any industrial truck, shut off the engine whenever refueling.
- Never mount or dismount where hand and foot holds are not provided.
- Never climb or walk on the tracks.
- Blades and attachments must be kept close to the ground while moving.
- When parking, the bulldozer should either be on level ground or blocked to prevent rolling. Set the parking brake, lower all attachments to the ground, and turn the machine off before exiting for any reason!

OPERATING ON A SLOPE

Bulldozers are not made to operate on slopes greater than 45 degrees. If you must operate on a slope, you should measure it beforehand and check your operator's manual for their recommendations for operation on steep slopes. In addition:

- Walk the slope before grading it to check for irregularities, erosion, or rocks that could negatively affect the bulldozer's traction.
- Only operate the machine up and down the sloped terrain rather than across.

CONCLUSION

Becoming familiar with the bulldozer you will be operating and applying all safety training you have received from your employer will help keep you and others safe.

Tree Removal & Vegetation Abatement Services - Nevada County

Addenda: 0

4/5/24 5:00 PM 24-00737 183173 Grass Valley, Nevada
City, Truckee

Prebid Conf: March 20th, 2024 @1 PM VIA Microsoft Teams | Meeting ID: 268 586 324 059 Passcode: ub3yKV

The County is seeking companies that have strong tree removal and arbor service skills, with particular emphasis on fuel mitigation projects including large-scale shaded fuel breaks, defensible space, and roadside vegetation abatement. Experience working across multiple land ownerships (private, state, federal) is desirable. Staff resources, equipment, references, and experience and qualifications will be considered. All companies who wish to be considered for any of the work described herein should have general knowledge of the following as applicable to the discipline of Tree Service Contractors, Licensed Timber Operators, and Vegetation Management Professionals. The project consists of tree removal, tree trimming, stump grinding, chipping, mastication, hand thinning, and other vegetation management services for various tree removal, roadside vegetation abatement, defensible space, and shaded fuel break projects throughout Nevada County.

License Requirement: C-61/D-49

Questions are to be submitted in writing by March 27th before 5 PM.

CUPCCAA for Nevada Joint Union High School District

Addenda: 0

11/1/24 2:00 PM 23-03931 Grass Valley

The District is inviting all interested licensed contractors to submit their company information for inclusion on the District's list of qualified bidders for calendar year 2024. Pursuant to California Public Contract Code 22032, any Public Works Project that is estimated to be below \$200,000 is subject to the Informal Bidding Procedures set forth by the State of California Uniform Construction Cost Accounting Commission. All trade categories are subject to Informal Bidding Procedures. Contractors that are interested in being on the 2024 Informal Bidding Contractors List are required to have a current State of California Contractors license in the appropriate classification and are subject to verification through the Contractors State License Board. Contractors are also required to be a registered Public Works Contractor and are subject to verification through the Department of Industrial Relations.

Fill out the Google Doc to be added to the bidders list!
